Note: * Indicates that the item is a part of the files of the Middle School Resource Center.

This bibliography represents a revision of a previously distributed similar publication printed in the summer of 1974. It includes many items which are a part of the files of the Middle School Resource Center. The center is located in the Education Center of the Indianapolis Public Schools, 120 E. Walnut Street, Indianapolis, Indiana 46204.

However, it must be noted that the bibliography contains only a portion of the materials on hand at the center. It is virtually impossible to include every item which can be obtained by request from the center. The files of the center continue to grow as materials are constantly being solicited and received from many sources, including existing middle school programs throughout the United States.

Many of the items listed in the bibliography may be reproduced and sent to the requesting individual. Concerning textbooks, it is not feasible to reproduce them due to copyright restrictions; however, information can be sent in an annotated form concerning the materials contained in the book.

It is anticipated that the bibliography will assist individuals in requesting materials from the center, or locating items which might be purchased. The Middle School Resource Center will be more than happy to honor requests from interested individuals, and at the same time is most anxious to receive any new materials to share with others. Questions concerning the function of the center may be directed to the Project Director by mail or phone (317-266-4611).
